

Summary

I have has completed three years of the undergraduate degree in The School of Architecture at the University of Limerick. I have chosen to take a year out to gain valuable industry experience before returning in Sept. 2019 to complete my studies. I then plan on continuing on to eventually become a registered professional architect with the RIAI.

I have always had a fascination with design, form and materials. Studying Architecture is focusing this curiosity, challenging my natural creative abilities and developing them into a satisfying career in Architecture.

Excellent IT skills. Highly proficient in AutoCAD, Rhinoceros 3D, Photoshop CC, inDesign CC, Illustrator CC, MS Office applications, including MS Project, Excel, Word, Powerpoint.

Very good hand drawing and model making abilities.

Competent technical writing, reporting and presentation skills.

Architectural Student

Address
